

## Obesity and the Built Environment:

Improving Public Health Through Community Design

May 24-26, 2004 • Marriott Wardman Park Hotel, Washington, DC •
National Institute of Environmental Health Sciences, National Institutes of Health

#### Obesity and the Built Environment:

### CROSS CUTTING THEMES

Consider built environment-obesity links at different levels and settings:

- Families and communities (urban/suburban/rural residences)
- Children and schools
- Employees/ers and worksites

#### Obesity and the Built Environment:

Improving Public Health Through Community Design

May 24-26, 2004 • Wardman Park Hotel • Washington, DC

# PLENARY SESSIONS

#### Plenary Session I: Schools and Children

Chair: Dr. Shobha Srinivasan, National Institute of Environmental Health Sciences

- Toxic Classrooms: Marketing to Children in Schools Dr. Alex Molnar, Arizona State University
- The School as a Contributing Factor to Adolescent Obesity <u>Dr. David F. Foulk</u>, Florida State University
- Healthy Schools, Healthy Communities: Opportunities and Challenges for Improving School Food Environments <u>Dr. Robert Gottlieb</u>, Occidental College

# Plenary Session II: Communities and Families

Chair: Dr. Andrew Dannenberg, Centers for Disease Control and Prevention
